NOTICE

Through this price list, we wish to express our thanks to you, our friends and customers, for your patronage. We appreciate the confidence that you have in us, and we want always to serve you in such a way as to merit a continuation of your business.

This price list cancels all previous prices.

Our stock is sold for cash on delivery only.

Write your orders plainly. Give full name and address on each order.

Give the correct size and price. Guess work causes mistakes.

Five may be sold at ten rate; twenty-five at hundred rate.

Confine your sales to varieties and sizes listed.

Varieties which are preceded by a star, thus *, have been tried and tested until we are certain that they will give satisfaction to our customers. These starred varieties are the best that can be had.

Remember that we grow our own stock under the same climatic conditions and in soil similar to yours. Our stock WILL GROW.

FOREWORD

A View of Our Office and Grounds

FOR sixty-five years our Nursery has been serving the home owners in this section. Here, where the climate and soil are ideal for the propogation and proper development of trees and plants, we have established a Nursery that is rapidly becoming the best known in this part of the state.

We are especially fitted to serve the orchardists and home owners because of our long experience in the Nursery business.

We are glad to offer suggestions on any phase of planting, and we urge you to feel free to use this service. No home is complete without trees and plants and we are prepared to assist you whether your planting is small or extensive. Let us help you enjoy your plants to the utmost by suggesting their proper arrangement in the places they should grow.

Number of Trees or Plants for an acre of ground set at regular distances apart

Feet	Feet		Feet	Feet	
1	by 1	43560	5	by 5	1742
2	by 1	21780	6	by 6	1210
2	by 2	10890	8	by 8	680
3	by 1	14520	10	by 10	435
3	by 3	4840	16	by 16	170
4	by 1	10890	20	by 20	109
4	by 2	5445	25	by 25	70
4	by 4	2725	30	by 30	48
5	by 1	8712	35	by 35	35
5	by 3	2904	40	by 40	27
5	by 4	2178	50	by 50	18

Rule: Multiply the distance in feet between the rows by the distance the plants are apart in the rows and the product will be the number of square feet for each plant or hill; which divided into the number of feet in an acre (43560) will give the number of trees to an acre.

THE CLYDE NURSERY, CLYDE, OHIO

APPLE

Apple trees will thrive on nearly any well drained soil. Their period of ripening, unlike other fruits, extends nearly through the whole season. By making careful selection a constant succession can be obtained.

<i>Size</i>	<i>Height</i>	<i>Each</i>	<i>Per 10</i>
XXX	5 ft. and up	\$1.00	\$9.00
XX	4 ft. and up	.80	7.00

PEACH

Some of our Young Peach Trees

It is an outstanding fact that our peach trees are the best that can be grown. The soil and climate are ideal for the growing of these trees. Peach trees require very little attention and come into bearing early.

<i>Size</i>	<i>Height</i>	<i>Each</i>	<i>Per 10</i>
XXX	4 ft. and up	\$.75	\$6.50
XX	3 ft. and up	.60	5.00
X	2 ft. and up	.45	4.00

NEW RED LEAF BARBERRY

One of the finest recent introductions among shrubs. The foliage is a distinct bronze-red. It takes full sunlight to bring out the richest red shade, which makes this shrub so striking, but it will always give a pleasing color note in any planting.

PRICE

	Each	Per 10
12 to 18 in.....	\$1.25	\$11.00

It's not a home until it's planted.

EVERGREENS

Evergreens give all year beauty. They have a place in the landscape planting that cannot be filled by any other plants. Their variety of coloring and sizes make them especially valuable.

Few people realize the time it takes to grow an Evergreen in the Nursery. It takes from seven to ten years to grow a well developed specimen. We offer here the results of our many years of specializing. Each Evergreen is a beautiful specimen and perfectly hardy.

Frequent transplanting and root pruning give our Evergreens masses of fine, fibrous feeding roots. Our Evergreens are sheared often, resulting in heavy, bushy symmetrical tops. All are balled and burlapped for shipment.

EVERGREENS ARE NOT GUARANTEED.

ROSES

Our Roses are strong plants, grown outdoors, well rooted, hardy and first class. Every plant has blossomed before it is shipped, and is far more valuable than a mere tender shoot started

Use our landscape service

Our Perennial and Rose Garden

ROSES—Continued

in a green house and without strength to stand the shock of transplanting.

HYBRID PERPETUAL ROSES

\$1.25 Each

\$12.00 per 10

The Hybrid Perpetuals are considered most valuable Roses, because they bear large, sweet and brilliant colored flowers, and are very hardy and vigorous growers. Though called "Perpetual" they are not constant bloomers, (with the exception of a few, such as Frau Karl Druschki, Mrs. John Laing) but are the finest and most beautiful of all hardy Roses.

Anna De Diesbach (pink)

Clio (silvery flesh)

Earl of Dufferin (rich crimson maroon)

Eugene Furst (velvety crimson, dark shading)

Frau Karl Druschki (white American Beauty)

Fisher Holmes (brilliant crimson)

General Jack (bright crimson)

J. B. Clark (scarlet to maroon)

Madame Plantier (snowy white, fragrant)

Magna Charta (bright rosy pink, beautiful)

Marg. Dickson (white, flesh center)

Marshall P. Wilder (deep red)

Mrs. J. H. Laing (satin pink, fine bloomer)

Prince Camile De Rohan (dark red to maroon)

Paul Neyron (bright pink—very large)

Ulrich Brunner (cherry crimson)

HYBRID TEA ROSES

The varieties listed under this head are all such as will keep up a succession of flowers all Summer after their glorious burst of bloom in June. The list includes the very best Ever-blooming Roses, both old and new varieties,

Quality stock at reasonable prices

HYBRID TEA ROSES—Continued

and will fill your garden, all Summer long and way into Fall, full of beauty.

Plan a rose garden

HARDY CLIMBING ROSES

Following is a list of the best that can be had. The perfect hardiness of this class of Roses, their strong growth and luxuriant foliage, adapt them for covering arbors, walls, trellises, and unsightly objects, which, together with their immense clusters of beautiful flowers commend them to all lovers of the beautiful. Require little pruning, except to thin out weak or dead branches.

CLIMBING ROSES

\$1.00 each

\$9.00 for 10

Baltimore Belle (white double clusters).
Climbing American Beauty (crimson).
Crimson Rambler (crimson).
Dorothy Perkins (pink).
Dr. Van Fleet (flesh pink—very fine).

Thousand Beauty (pink).
White Rambler.

RUGOSA ROSES AND HYBRIDS

These roses comprise a group of exceedingly hardy varieties, which are highly desirable for the garden because of their beautiful flowers, and resistance to disease. They are valuable in beds by themselves, or in the shrubbery group.

\$1.25 each

\$12.00 per 10

Belle Poitevine—(warm rose pink).
Grootendorst—(deep red clusters).
Hansa—(dark reddish violet).
Sir Thomas Lipton—(double pure white).
New Century—(flesh pink).
